

Tracker Fire Capabilities Statement

CAGE Code 77T94

DUNS Number 079541760

Capabilities

Tracker Fire, a service-disabled veteran-owned and woman-owned small business, provides professional consulting and design services within the fire alarm and life safety industry. Tracker Fire has a broad spectrum of expertise in fire alarm, emergency communications systems, wide area mass notification systems, mass notification systems, voice alarm systems, central station construction and operations, sprinkler systems, suppression systems, and air sampling systems.

Services provided by Tracker Fire include all aspects of fire alarm or life safety project from conceptual design meetings through the as-built drawings and final acceptance with all Stakeholders and AHJs. Other services provided are writing commissioning plans, writing construction specifications and RFPs, field surveys, feasibility studies, witness testing and commissioning, Owner's Representation, construction observations, technical reports, and personnel training.

Tracker Fire holds NICET certifications NICET CT #1601 Certified Engineering Technologist and NICET CET #108512 in Fire Alarm Systems, Special Hazards, and Water-Based Systems certifications. Tracker Fire partners also include Professional Engineers and Fire Protection Engineers.
